IRCTC / OVERVIEW

Explore sample demand, seat use and final passenger outcomes. Filter by month, class or train type.

Journey month

All

Travel class

All

Train type

All

Total bookings

2,01,182

Total passengers

4,05,200

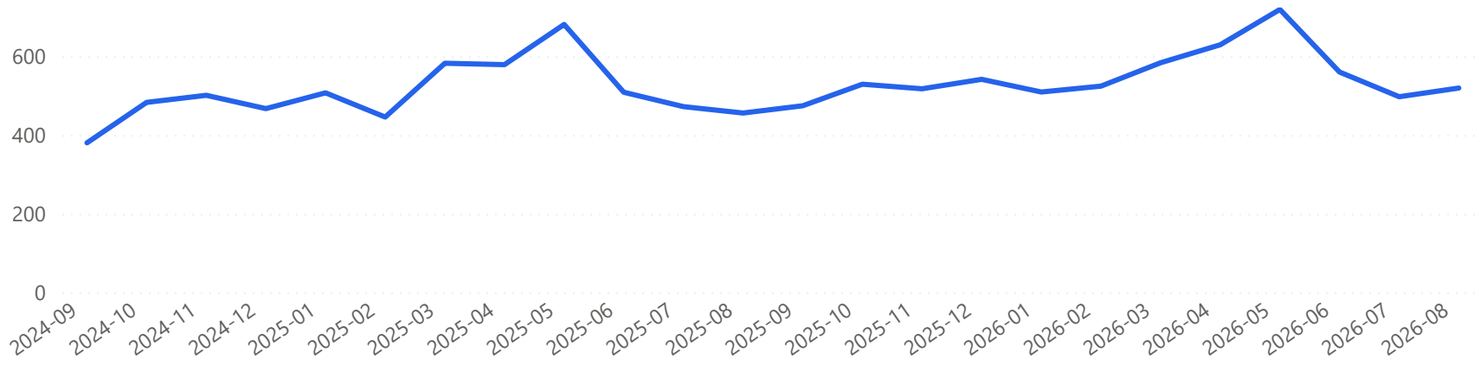

Seat occupancy

73.5%

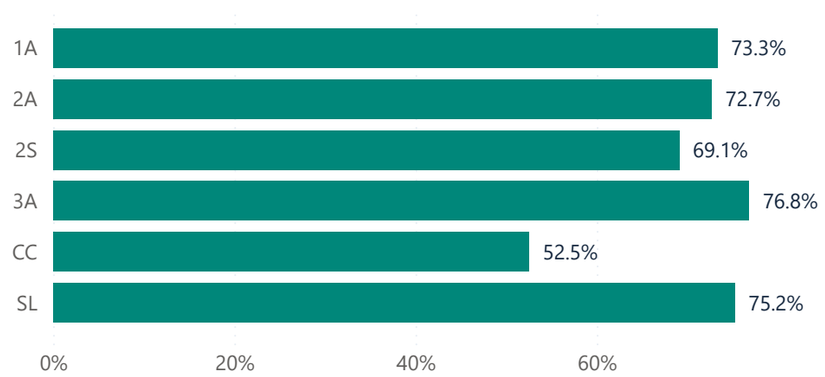

Passenger cancellation rate

13.8%

Passenger demand trend | passengers per simulated run

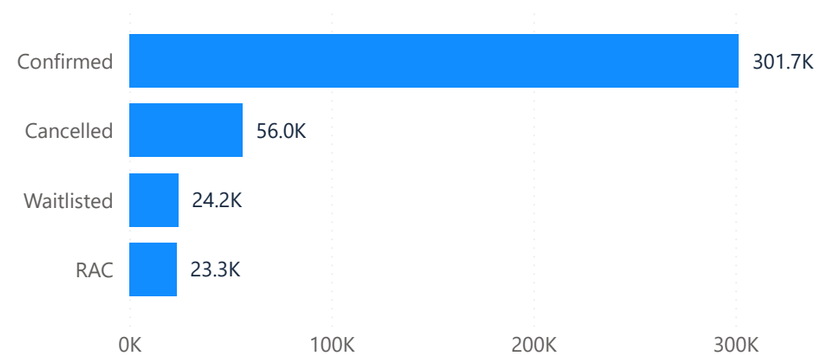

Seat occupancy by travel class

Monthly scorecard | net booking value in INR million

Month	Runs	Passengers/run	On time	Net value
2024-09	32	380.0	80.6%	16.04
2024-10	32	482.8	80.6%	20.53
2024-11	32	500.7	71.0%	19.73
2024-12	32	466.9	81.3%	20.35
2025-01	32	507.0	71.0%	19.60
2025-02	32	445.5	59.4%	18.06
Total	**768**	**527.6**	**74.8%**	**505.88**

Final passenger status | passenger count

Sample totals only. Compare demand per simulated run; occupancy counts each RAC passenger as 0.5 seat.

SYNTHETIC DATA | 768 simulated runs sampled from 19,708 scheduled runs | No actual IRCTC results or forecasts

IRCTC / DEMAND & CAPACITY

Compare passenger records with seat supply; use weighted occupancy to measure seat use.

Journey month: All

Travel class: All

Train type: All

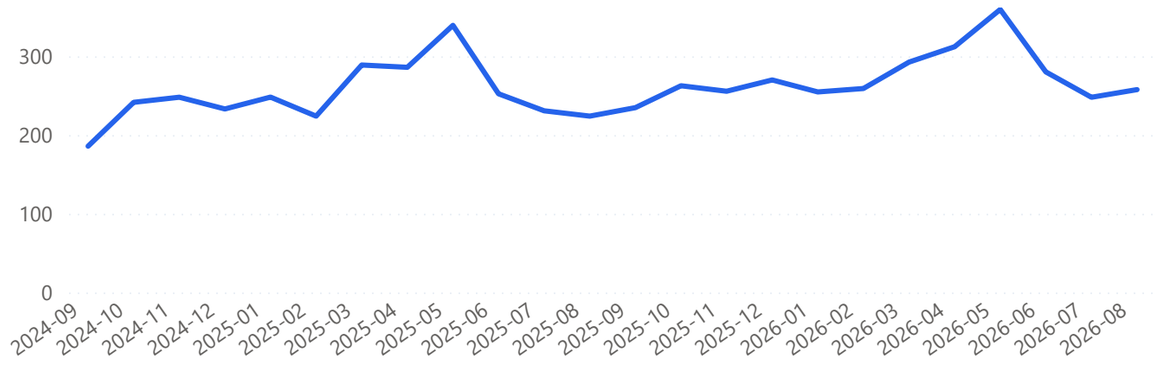

Simulated runs: 768

Seat supply: 4,26,384

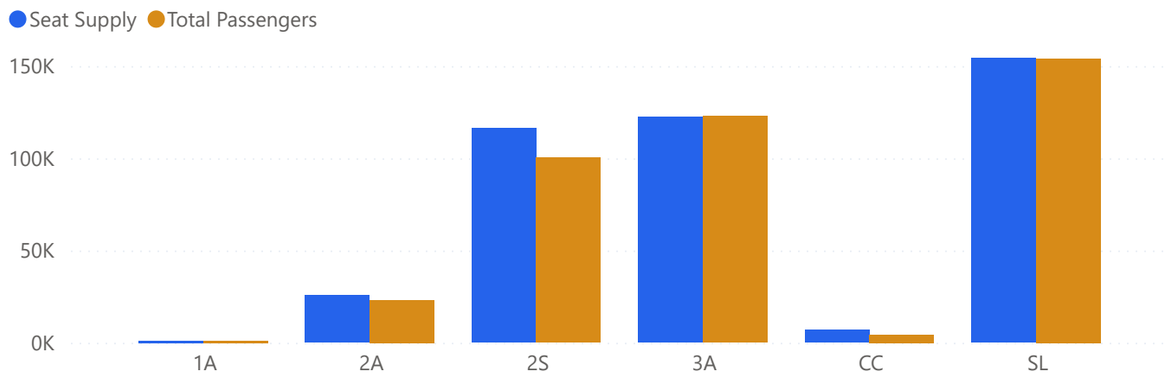

Bookings per simulated run: 262.0

Waitlist pressure: 5.7%

Monthly bookings per simulated run

Seat supply vs passenger records | includes cancellations and waitlists

Class capacity and demand

Class	Seat supply	Weighted seats	Passengers	Occupancy	Waitlist pressure
1A	768	563.0	641	73.3%	3.4%
2A	25,760	18,724.5	23,137	72.7%	4.5%
2S	1,16,100	80,227.0	1,00,339	69.1%	4.8%
3A	1,22,368	93,992.0	1,22,748	76.8%	6.5%
CC	7,020	3,688.0	4,239	52.5%	0.3%
Total	**4,26,384**	**3,13,345.5**	**4,05,200**	**73.5%**	**5.7%**

Occupancy heatmap | season × class, darker = higher

Season	1A	2A	2S	3A	CC	SL	**Total**
Winter	59.7%	70.8%	65.9%	72.2%	48.3%	72.9%	**70.2%**
Summer	81.8%	81.4%	78.9%	85.8%	60.0%	85.2%	**82.9%**
Monsoon	66.7%	70.2%	65.3%	72.9%	52.2%	71.6%	**70.0%**
Post-Monsoon	84.2%	67.5%	66.0%	78.2%	41.8%	71.4%	**71.4%**
Total	**73.3%**	**72.7%**	**69.1%**	**76.8%**	**52.5%**	**75.2%**	**73.5%**

Weighted seats = confirmed + 0.5 × RAC passengers. Waitlisted passengers hold no seat; pressure is a separate metric.

SYNTHETIC DATA | 768 simulated runs sampled from 19,708 scheduled runs | No actual IRCTC results or forecasts

IRCTC / BOOKING VALUE

Simulated booking values and refunds in INR million. Net booking value = gross value − refunds.

Journey month

All

Travel class

All

Train type

All

Gross booking value · INR million

612.97

Refunds · INR million

107.08

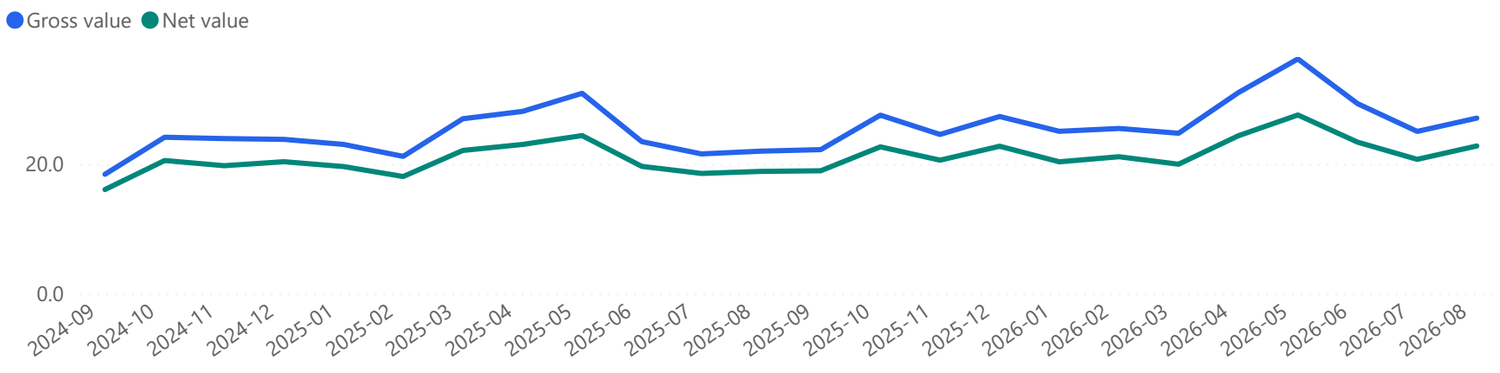

Net booking value · INR million

505.88

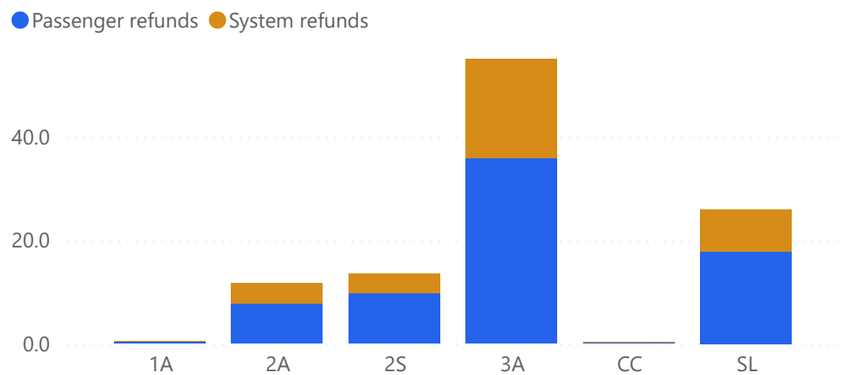

Refund share of gross value

17.5%

Gross booking value vs net after refunds | INR million

Refund sources by class | INR million

Monthly value reconciliation · INR million

Month	Gross value	Passenger refunds	System refunds	Net value
2024-09	18.40	2.02	0.34	16.04
2024-10	24.12	2.80	0.79	20.53
2024-11	23.92	2.81	1.38	19.73
2024-12	23.80	2.57	0.88	20.35
2025-01	23.02	2.69	0.74	19.60
2025-02	21.17	2.32	0.79	18.06
Total	**612.97**	**71.88**	**35.20**	**505.88**

Passenger refunds and system auto-refunds are separate components. Booking value is not revenue or profit.

SYNTHETIC DATA | 768 simulated runs sampled from 19,708 scheduled runs | No actual IRCTC results or forecasts

IRCTC / TRAIN & ROUTE PERFORMANCE

Compare sample demand, seat use and punctuality. Hover to inspect simulated-run counts before ranking services.

Journey month All

Travel class All

Train type All

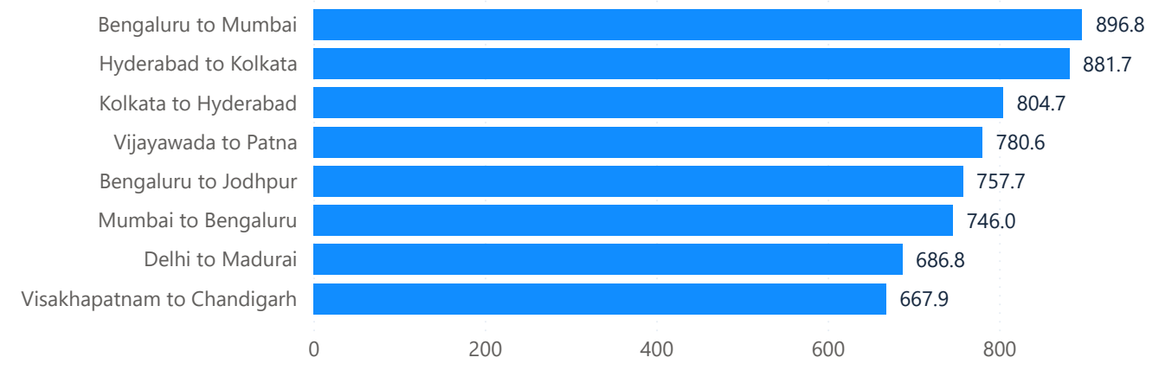

Simulated runs 768

Passengers per simulated run 527.6

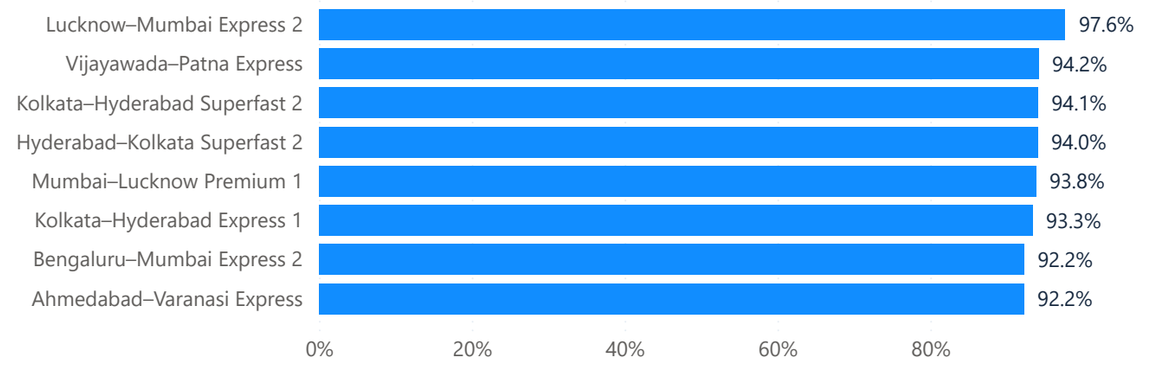

On-time performance 74.8%

Average arrival delay · minutes 19.0

Leading routes | passengers/run, ranks 1–8 incl. ties

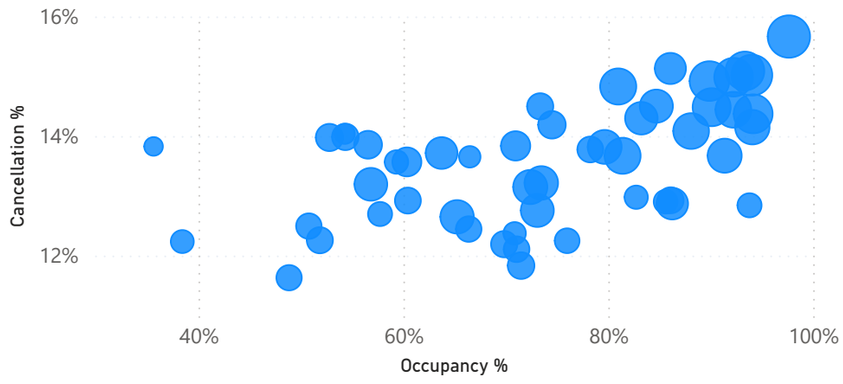

Leading trains | occupancy %, ranks 1–8 incl. ties

Train scorecard | arrival delay in minutes

Train	Runs	Passengers/run	Occupancy	On time	Delay (min)
Ahmedabad–Chennai Express 1	15	600.1	83.2%	53.3%	27.7
Ahmedabad–Chennai Express 2	20	426.9	63.7%	83.3%	8.4
Ahmedabad–Varanasi Express	19	584.3	92.2%	83.3%	7.2
Amritsar–Indore Superfast	13	467.3	52.8%	100.0%	1.9
Bengaluru–Jodhpur Express	13	757.7	79.7%	92.3%	6.5
Bengaluru–Mumbai Express 1	16	864.7	89.9%	68.8%	24.6
Total	**768**	**527.6**	**73.5%**	**74.8%**	**19.0**

Train comparison | occupancy vs cancellations

On time: arrival delay ≤15 min; missing delays excluded. Run metrics ignore class. Scatter: bubble size = passengers.

SYNTHETIC DATA | 768 simulated runs sampled from 19,708 scheduled runs | No actual IRCTC results or forecasts

IRCTC / WAITLIST & CANCELLATIONS

Track initially waitlisted passengers and compare final passenger outcomes across travel classes.

Journey month: All

Travel class: All

Train type: All

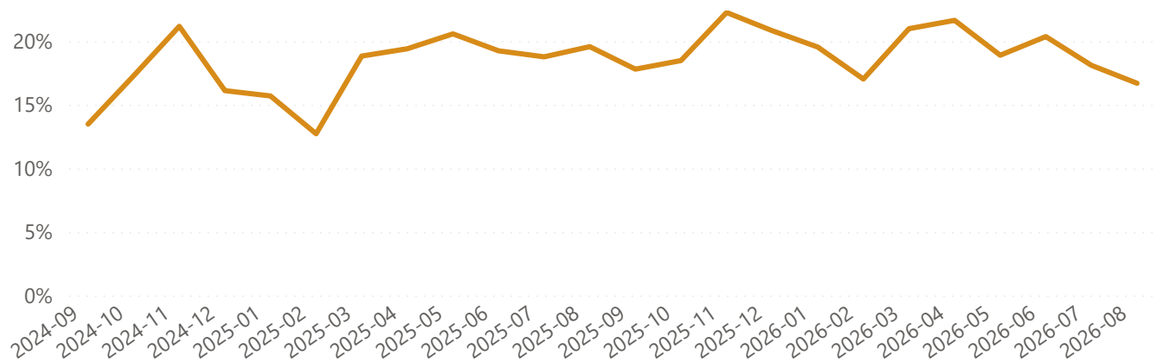

Initially waitlisted passengers: 36,876

Waitlist clearance rate: 19.2%

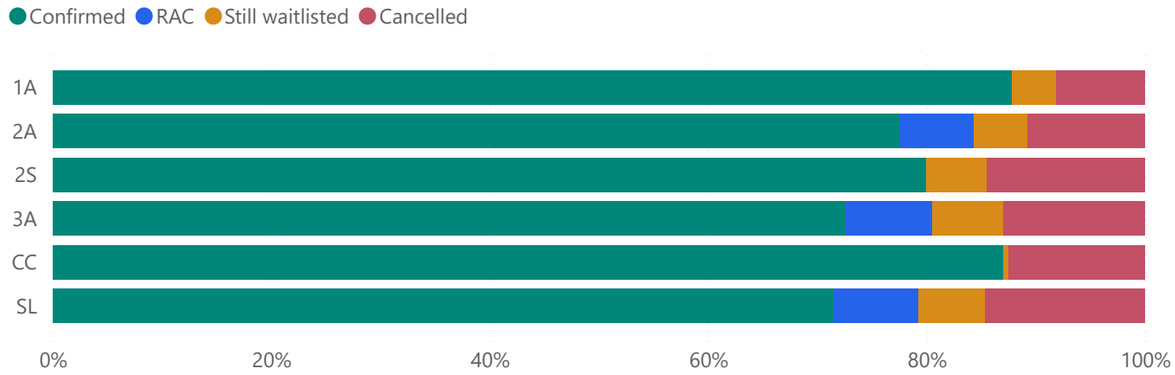

Uncleared waitlist passengers: 24,200

Passenger cancellation rate: 13.8%

Monthly waitlist clearance rate

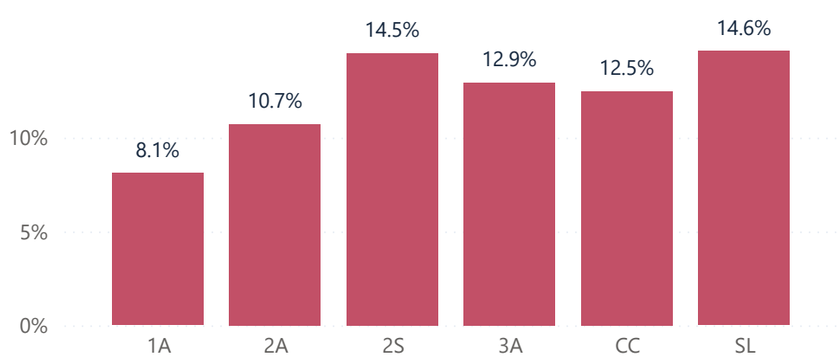

Passenger outcomes by class | share of final statuses

Waitlist outcomes by class

Class	Initially waitlisted	Cleared	Still waitlisted	Clearance rate
1A	33	6	26	18.2%
2A	1,542	198	1,154	12.8%
2S	8,469	1,487	5,574	17.6%
3A	11,930	2,358	7,996	19.8%
CC	43	11	23	25.6%
SL	14,859	3,027	9,427	20.4%
Total	**36,876**	**7,087**	**24,200**	**19.2%**

Passenger cancellation rate by class

Cleared = initially waitlisted passengers finishing Confirmed/RAC. Remaining initial waitlist cases may include cancellations.

SYNTHETIC DATA | 768 simulated runs sampled from 19,708 scheduled runs | No actual IRCTC results or forecasts

IRCTC / KPI VALIDATION

HOW TO READ THESE CHECKS
Reference = imported expected value.
Calculated = model result; Difference = calculated − reference.
Rates use decimal ratios (example: 0.75 = 75%).
Booking-value checks use raw INR, not INR million.
Imported check counts are separate from live KPI comparisons.

PASS is computed by the model. Investigate FAIL, NOT COMPUTED or blank results before publication.
